IMPORTANT DATES

JULY:

Monday 15th Term 3 commences

Wednesday 17th School Council sub committee

Saturday 20th Students Movie/Pyjama Night

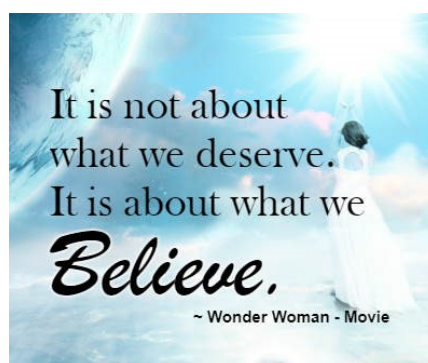

Wednesday 24th School Council meeting

Monday 29th Munchy Monday

A big thank you and farewell to our wonderful acting Principal Megan Dell. We wish you all the best in your future endeavours.

From your KHPS family.

MESSAGE FROM THE ACTING PRINCIPAL

WOW! What a term! I can't believe it's the end of Term 2.... in fact, I can't believe I'm writing my final newsletter at Kingston Heath Primary. Before I get into all that, there are a few things we have to do first...so let's get on with it!

Curriculum Days Semester 2

Many of you would be aware that the curriculum days for Semester 2 had not yet been determined. I wanted to give Sherri a chance to determine when they would occur and what would be the focus for staff. After meeting with her last week, I presented to school council the proposed dates: **Friday 23rd August & Wednesday 6th November.**

These dates have been approved by school council and can now be added to your calendar/diary.

Student-Led conferences

It was amazing to see so many excited students sharing their learning with their family at the first ever KHPS Student-Led conferences earlier this week. Schools are required to provide written reports to parents/guardians at least twice a year to identify their child's growth and achievements. We are also required to offer a conference to discuss the students' progress. Even though we are required to offer these conferences, they are not compulsory for parent/guardians to attend... but we **STRONGLY** recommend it. In saying that, it was fantastic to see that over 95% of our families attended! That's a great turn out.

As this is the first time KHPS has participated in Student-Led conferences, we have no doubt that there are areas we can develop further to ensure we continue to all learn and improve together. We always seek ways to improve our practice, and have sent out a link for parents to provide feedback on the conferences. Yes it was different to what has happened in the past..... that doesn't make it better or worse, it just makes it different! Research suggests that having students be involved and taking responsibility for their learning (regardless of their age/year level) has a much greater positive impact than the traditional parent/teacher interviews.

The feedback we receive from the community, together with feedback from staff and students, will ensure that we are striving to continually improve not only what we do, but also how we do it!

Social Media Behaviour

As a school we are continually teaching our students how to behave appropriately online, and unfortunately some of the behaviour we hear about away from school is in direct opposition to that.

I have always believed that as a school community, it is our responsibility to:

- model positive behaviour to our students and the wider community
- treat members of our school community with respect
- work together to achieve the best possible outcomes for our students
- create a safe and supportive environment for our students to learn
- communicate constructively with the school and use appropriate avenues when raising concerns

Kingston Heath is a great school, and together we provide amazing opportunities for our students to learn and achieve in a safe and supportive environment. Sometimes things happen that we may not agree with or are beyond our control, and we need to work as one to support each other to move forward for the benefit of our most important assets; our students.

If you are unsure of information you have heard through whatever means, please contact the school directly so that we can provide you with facts and discuss the misunderstandings you may have.

Should I stay or should I go?

You might be shocked to know that planning for the 2020 school year is in full swing! To assist us in making sure we are ready for next year, if you or anyone you know hasn't enrolled or intends on not being a part of our school community in 2020, could you please let us know.

Road Safety and Helmets

As it's the end of term, I use this time to get on my soapbox about Road Safety and Helmets So here I go....

During the school holidays, please be aware of an increased number of children out and about, riding their bikes and scooters and playing around the streets. It doesn't matter for how many years you have been riding for, accidents can still happen. From personal experience, I know that my bike helmet not only saved my life, but also my ability to walk and function the way I still can. Helmets don't work if they are being held in your hand while skateboarding, or sitting on your handlebars when riding your bike. They also don't work if they are not done up correctly or the straps are loose and just hanging around your chin. What we do need to do is make sure that our children are careful on the roads, follow the rules, and ALWAYS WEAR A HELMET CORRECTLY.

Holidays

Please remember that it is the responsibility of everyone to ensure that our school is looked after over the holiday period. It's great to see people using the school facilities by making use of the basketball courts, ovals and playgrounds. We have a wonderful community resource and it is our collective responsibility to ensure that our grounds are used appropriately.

"And now, the end is near, and so I face the final curtain....."

The saying goes "time flies when you're having fun", and time has definitely flown! In some ways it's like I blinked and my year is up, in other ways it feels like I've always been part of the KHPS community. As I sit here and reflect on our time together, I remember not only all the fun times we have had, but also how far we have come as a school community....Nobody could ever say it's been an uneventful twelve months!

I wanted to take this opportunity to thank the students who I have worked with; they make me smile every day and are the reason I love what I do. It is because of them we have such a special school. To the staff, who have been with me for this wild ride, thank you for your support, and your commitment to making a positive difference in the lives of so many. To our parents and community members, who volunteer so much of their time; thank you.

Kingston Heath Primary School will always have a very special place in my heart. My experiences here have helped me grow both professionally and personally. This eventful chapter of being your Acting Principal is coming to a close, and the next one is about to begin. You never know what the future holds, I'm excited about the possibilities of being the Acting Principal at Toorak Primary School next term and the new opportunities and challenges it will bring.

I hope you all have a happy and safe break and get to spend some time with those people you care about the most over the school holidays.

Megan

Nicole Louey is a beautiful KHPS Mum of Ash and Jett. Unfortunately she has discovered that the breast cancer she fought and beat over 5 years ago had returned. Joshua Mooney 3/4a and Thomas Gillbee from OLA play basketball and football with Ash and whose dad Jason (Nicole's Husband) is coach.

Josh and Thomas had the idea to shave their heads in support of Nicole having to shave hers to raise money for the family as they fight this battle together. This is the second time Nicole has battled cancer; last time Nicole and her family raised \$20,000 for cancer research. This time we're raising money to ease the financial burden this disease imposes.

So far the boys have raised over \$5000! They will shave their heads on the 14th July at the Cheltenham Panthers Football family night. Josh will proudly display his shaved head when he returns from the school holidays with a final figure raised for the Louey's. The link to donate is

<http://gf.me/u/tby6dr>

We are very proud of him and his friend and their efforts.

Thomas, Nicole and Josh

Year 5 and 6 Learning Update

Date	What's happening...	Central Idea	Learner Profile attribute/	English	Maths	Reminders
25/6	This week...	Discoveries have consequences	<u>LP:</u> Thinkers <u>ATL:</u>	Explanation texts and Information reports	Number Fluency and Fractions	Term 3 begins Monday 15th July! Walking Tour City

Girls District Soccer Tournament

On Tuesday 18th June, 15 year 5 and 6 girls went to a district soccer tournament. The aim of the day was to promote girls participation in sport and expose the girls to a new sport, such as soccer.

They played lots of short sharp games and thoroughly enjoyed themselves. They improved their skills and demonstrated many of the learner profile attributes throughout the day, towards each other and their opposition.

Aussie Inventions

If you have Foxtel, the history channel is showing a series about Aussie Inventions, it would be a good finish to our current unit of inquiry.

Summative Assessment

This week, the students have shown student agency and voice in choosing a physical, chemical or biological discovery focus for their unit of inquiry summative assessment. They have enjoyed the freedom in how to present their learning and engaged in collecting and summarising research to share with the rest of the class. They used a co-constructed success criteria based on Blooms Taxonomy to guide their learning.

Electricity

Who discovered it: Benjamin Franklin
When did he discover it: 1752
How did he discover it: Kite Experiment
Where did he discover it: Philadelphia

Other Electricity Scientists:
Nikola Tesla, and William Gilbert.

Nikola Tesla:

Nikola Tesla is a Serbian-American electrical engineer and futurist who is best known for his contributions to the design of the present alternating current electricity supply system. He was born on the 10th of July 1856 in Smiljan, Croatia and died on the 7th of January 1943 in New York, United States. He invented the Tesla Coil, the first remote control, and many more.

William Gilbert:

William Gilbert, also known as Gilbert, was an English physician, physicist and natural philosopher. He enthusiastically rejected both the prevailing Aristotelian philosophy and the Scholastic method of university teaching. He was born on the 24th of May, 1544 in Colchester, United Kingdom, and died in London on the 30th of November 1603. He invented the Electroscope and the Terrella.

What would it be like without electricity?

Without electricity, we wouldn't have evolved and created things like life support systems, tv, and modern refrigerators. Without these things, some people won't be alive today, and we wouldn't be able to conserve food like we do today. We wouldn't have lights, mobile phones, computers, iPads, and DVD players.

Topics include, DNA, Diabetes, Space Shuttle Thrusters, Electricity, Gravity, Periodic Table, Tectonic plates, Smallpox, and so much more. Their presentations range from Stop Motion animations, Google Slides, models, experiments, role plays, posters and dances. We're looking forward to them sharing their final product next term.

Semester

Reflection

Table Talk Question:

As students will be starting their unit of inquiry, 'Major events in history shape a nation', at the start of next term, here is a table talk discussion point...

Discuss influential historical figures such as Nelson Mandela, Eddie Mabo, Barack Obama, Malala and Neil Daniher, and how they have impacted a country

Year 3/4 Learning Update

Date	What's happening...	Central Idea	Learner Profile attribute/ ATL focus	English and Maths focus
24/6	This week... Student led conferences	Sharing the planet	Learner Profile attribute: Balanced ATL focus: Research skills	English - Poetry and Word study focusing on the prefix 'un' Maths - Time and place value

Each fortnight we will include a question that you and your family can discuss.

Table Talk Question - What was the highlight of camp, and what did you do to push yourself out of your comfort zone?

Reflect on the term and discuss your learning with your family.

Sunnystones Camp

With great excitement and anticipation, the year three and four students headed off to Sunnystones camp in Bacchus Marsh. Activities included Bouldering, Archery, Geocaching, Bush cooking, Survival game, and Hut Building. It was wonderful to see the students building their resilience and have a go at the opportunities that Sunnystones camp had to offer.

I found Archery challenging because it was my first time. Survival game was fun because we could get other people's tags and they could catch you too. I also enjoyed being in the cabin at night with my friends. (Samir)

Year 3/4 Learning Update

At camp, I liked going outside and doing adventure activities. Bush cooking was interesting because we got to make food that we haven't made before, and Bouldering was difficult because you had to play Simon says while trying to hold on to the wall. Camp was the best! **(Ruby)**

Student led conference reflection

My Mum and older sister came to my SLC. I felt a bit nervous but when I was done I felt really proud of myself. I enjoyed showing my sister and my Mum my invention (rubbish detector). I also enjoyed talking to my family and teacher at the same time. I didn't like waiting for my sister to finish her SLC. Next time, I wish there was a kitchen reflection to show my Mum and sister what I made in kitchen. I would give my SLC a 9/10.

My Mum and sister came to my SLC. I felt excited and scared. I enjoyed showing my family my Ormie narrative. I also enjoyed playing with my friends before the conference. Next time, I would like to include more Art. I would give it 1000/10!

Year 1/2 Learning Update

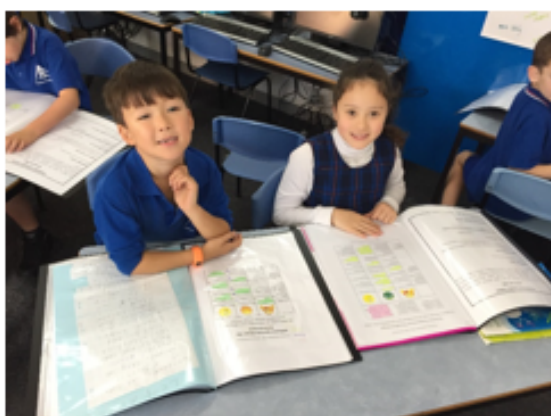

Date	What's happening...	Central Idea	Learner Profile attribute/ ATL focus	English	Maths	Reminders
24/6	This week we continued looking into our UOI, How We Express Ourselves. Students have worked on their Summative Assessment Task which involves expressing an idea or an emotion through performance, and will present it to the class at the end of the week.	People express ideas and feelings.	LP: Open-minded and Risk taker ATL: Communication skills Thinking skills	Students are having fun creating their own narratives this week. Students are also enjoying having choice during Reading Workshops and we have been focusing on comprehension.	Students have been engaging in a range of chance and data activities using dice, counters and coins. We also made spinners with unequal and equal chance possibilities. Students will also complete their post assessment on Chance.	
15/7	We will begin our new UOI, How the World Works this term.	Natural forces are at work everywhere.	LP: Thinker and Knowledgeable ATL: Thinking skills and Social skills	We will be focusing on Procedural Writing and starting a new Author Study on Mem Fox.	We will begin our new unit, focusing on Division.	Please bring in recyclable boxes/items as we will be making many creative creations this UOI.

STUDENT AGENCY

Students have had agency during our UOI, How We Express Ourselves, when preparing for our Summative Assessment Task. Students have been able to choose the emotion or idea that they would like to express and how they wish to perform it. Students have been working hard by coming up with creative dances, songs, role-plays and much more! We can't wait to see everyone perform on Friday!

LEARNER PROFILE ATTRIBUTE

This week we have been embracing the Learner Profile Attribute of being **Reflective**. Students have been carefully selecting pieces of work to add to their portfolio. They have been reflecting on their work, considering their strengths and weaknesses, and how they can move forward and set goals for their future personal and learning development.

INCURSION

We were lucky enough to have a past student from Kingston Heath Primary School come and talk to us about all things SAKG! Students absolutely loved learning and asking questions about plants, foods and herbs in this session. We can't wait to test out our new knowledge with Ms. Funnell!

Foundation Learning update

Date	What's happening...	Central Idea	Learner Profile attribute/ ATL focus	English	Maths	Reminders
24/6	This week...	Humans and animals share earth's food sources	Principled	Features of non-fiction texts	Introduction to division	100 Days of School Party 1/08/19 Make t-shirt
1/7	Next week...	Holidays				

As part of our focus on the origins of food we planted snow peas and watched them germinate. Students were excited to check them each morning and are practising using the correct language such as roots, seedling and germination. During writing classes students created a flow chart highlighting how plants grow.

Students also had the opportunity to use a hand grinder to grind wheat into flour. This generated a lot of rich discussion as many food items that we eat incorporate wheat products. Students were captivated by the process and the grinder was a popular activity during developmental play rotations.

Table Talk Time

This section is for families to use as a prompt to have discussion about of our unit of inquiry, over the dinner table. *'What did you learn about food sources at school?'*

Premiers' Reading Challenge

As Term 2 draws to a close, I thought it would be a good time to congratulate all the students that have participated in the Premiers' Reading Challenge thus far and remind everyone that the Challenge is still 'open for business' during the school holidays.

So don't forget to pick up a book (rather than a game controller) over the holidays and register your books at education.vic.gov.au/prc

Kingston Heath Primary School Top 10 Readers who have completed the Challenge:

- 1st - Taliah O'Quely, Grade 6 - 100 books
- 2nd – Adam Wingate, Foundation – 81 books
- 3rd – Evhan Shrestha, Foundation – 64 books
- 4th – Gael Rosa, Foundation – 56 books
- 5th – Imogen Marshall, Grade 3 – 55 books
- 6th – Kyla Sammut, Grade 2 – 51 books
- 7th – Emily Wingate, Grade 6– 45 books
- =8th – Claire You, Foundation – 38 books
- =8th – Charlotte Watson, Grade 1– 38 books
- 9th – Emma Doyle, Foundation – 37 books

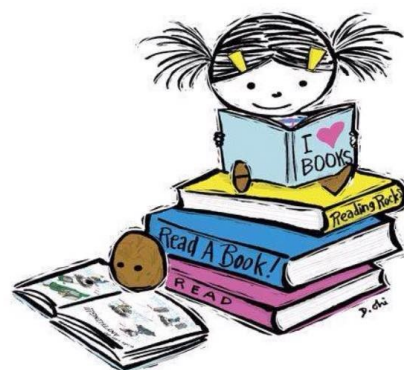

Congratulations to all these people and remember you have until the 6th of September to complete the challenge and see your name up on the leader board.

Happy Reading!

FUNDRAISING FOR KINGSTON HEATH PRIMARY SCHOOL

Renea Gilles is a parent of Kingston Heath PS and would like to help the fundraising for Kingston Heath.

If your planning a trip or maybe family or friends please refer Renea

Gilles renea.gilles@flightcentre.com.au or contact 0421 278 367 or

03 9585 4377

A large horizontal banner with a background image of palm trees and a blue sky. On the left, there is a small photo of a Flight Centre employee in a pilot's uniform. The main text is in a white box with a red border. It reads: '\$50 off* your next holiday' followed by a red '+' sign and '\$10 donation to Kingston Heath Primary School compliments of Renea Gilles'. Below this, in smaller text, it says: 'Present this offer to receive \$50 off your next booking and we'll donate \$10 to Kingston Heath Primary School compliments of Renea Gilles. It's a WIN WIN! You'll benefit from Flight Centre's great low prices and know that you're supporting Kingston Heath Primary School compliments of Renea Gilles.' At the bottom of the banner, there is a red bar with the Flight Centre logo, the text 'Flight Centre Southland Tailor Made Level 1, Woodfield Southland 1239 Napier Highway', the website 'flightcentre.com.au', and the phone number '1300 082 659'.

Restrictions and conditions apply. Please ask us for further details or visit our website at flightcentre.com.au/southland-tailor-made. *The voucher must be presented to a Flight Centre consultant at the time of booking to receive this credit. Limit of one \$50 credit per booking. Valid only for new bookings with air & land over \$1500 & paid in full. Offer valid until 31/12/2019. This \$50 credit can only be redeemed once, cannot be redeemed for cash nor used in conjunction with any other offer. Normal booking conditions apply. This credit is only valid for bookings at Flight Centre Southland Tailor Made. Excludes online purchases. The store reserves the right to deem the voucher void if it has been tampered with or copied. \$10 charity donation will be made on full payment. Flight Centre Travel Group Limited (ABN 25 003 377 188) trading as Flight Centre, ATO Accreditation Number A/2412 AC(411).

Great News!!

KHPS has been shortlisted in the **2019 Leader Local Grants!!!**

What does this mean: If successful, we will receive \$1,000 to purchase new equipment for the Kitchen Garden Program.

What can I do to help: Vote!!! Please ask partners, friends and other family members to vote for us also. Voting is open **NOW** and closes at 5pm on Friday, 28th June. Every person who registers will have 10 votes allocated to them. Anyone who is 18 or over and lives in Victoria can register and vote.

How to Vote:

- 1 Go to <https://www.leaderlocalgrants.com.au>
1. Click the Login/Register button to register your details, or you can login straight away if you have registered to vote in previous years (and can remember your login details)
2. Once you are logged in, click "Finalists" on the menu at the top of the screen
3. Find Moorabbin Kingston Leader in the list (under All Local Papers), select it, and then click "Filter"
4. Find "Update our Kitchen – Kingston Heath Primary School", and click "Vote". You are have 10 votes to use, so you will need to click "Vote" 10 times to allocate all of your votes to KHPS. (You can see a tally of how many votes you have remaining in the top right-hand corner of the screen).

Thank you for your support!

LUNCHTIME CLUBS FOR TERM 3 AT KHPS

ENTERTAINMENT BOOK

Hi KHPS families,

Thank you to everyone that has ordered their Entertainment Book membership, your support is greatly appreciated!

As of the 1st June, you can start using your 2019/20 vouchers.

If you are still contemplating ordering a membership but are unsure, there is a sample copy in the office that you can flick through.

Don't forget, if you are heading interstate, you can get a membership for that destination and with the next school holidays just around the corner, the Entertainment Book is a great money saver and also takes you places that you may never have considered going to, win win .

Click on the following link to place your order:-

<https://www.entertainmentbook.com.au/orderbooks/187n113>

Thank you
FUNdraising Team

WORKING BEES ARE RETURNING TO KHPS

We can't wait to restore that sense of pride in our outdoor learning environments.
Are you handy in the garden, able to undertake some pruning, capable of distinguishing between a plant and a weed?

Perhaps you can undertake some sweeping or spread some much needed garden mulch?

You might prefer to clean a drink trough?

Skilled labour would also be appreciated....can you lay a garden sleeper, build a bike shed, remove some pavers or prepare an area for future paving?

We encourage all families to attend and participate. You will meet new people and be part of our wonderful community, whilst maintaining and creating a wonderful school environment.

We will be holding Level Working Bees from 9.00 -11.00am on the following dates:

Foundation: Saturday 3rd August

Level 1/2: Saturday 7th September

Level 3/4: Saturday 2nd November

Level 5/6: Saturday 7th December

We would love you to diarise the date.

We have many jobs to get through and all of our hard workers will be rewarded with some light refreshments at the end.

Don't worry if you have never been to a Working Bee, we will show you how!

Come and get your hands dirty while doing an act of kindness for our school.

Karen Roberts
Assistant Principal

LEGO EDUCATION PROGRAM

The new program has been designed in two parts:

- **Science and Technology:**
Students explore the world of powered mechanisms and simple machines.
- **Creativity and imagination:**
Students engage with LEGO® pieces to complete puzzles, games and challenges without instructions and become Master Builders!

The course is designed for all primary aged students with each student using an age appropriate LEGO® Education kit to complete his or her challenge.

As long serving primary school teachers we believe it is important to use the Australian Curriculum as a guideline to the program.

Key STEM Learning Values:

- **Physical Science:** The way objects move depends on a variety of factors including their size and shape: a push or a pull affects how an object moves or changes shape
- **Engineering Principles and systems:** Explore how technologies use forces to create movement in designed solutions
- **Materials and technologies specialisations:** Explore the characteristics and properties of materials and components that are used to create designed solutions

The 10 week course will begin in term 3, on Thursday the 18th of July, lunchtime, at a cost of \$165 per student. The course will be held at Kingston Heath Primary School (hall)

For more information please contact James:

Family Fiesta encourages children to participate, create, read and imagine. This is one of the few festivals in Australia which focuses on children's literature and art. It is designed so that families can drop in and explore throughout the day.

Running across the three days is the **Fiesta Book Nook**, a large bean bag reading area for parents and children to enjoy some of the top literary reads. To add to the interactivity of the festival, Polyglot Theatre, Australia's leading creator of participatory children and family theatre will showcase **Sound of Drawing** and there will be a DJ live drawing sessions.

One of the highlights of the weekend is the stage show adaption of Oscar Wilde's, **The Young King** by Slingsby Theatre Company. The short story has been beautifully adapted for stage, and uses inventive and immersive ways to get kids involved and engaged in the performance.

All the events in the festival are free except for the **The Young King** which is \$15 for children and \$35 for adults. We have a limited number of discounted tickets for this wonderful performance. Simply redeem the code below for adults to save \$20.

Performance: The Young King

Dates: Friday 5 - Saturday 6 July
